# Cold Storage Contractor

PROVIDE REFRIGERATION ENGINEERING SCHEME PROFESSIONALLY

Specialized in providing 500 tons, 800 tons, 1000 tons, 1500 tons, 2000 tons, 3000 tons, 5000 tons, 10000 tons of cold storage solution, refrigeration equipment products.

# CONTENTS

**01** Cold storage of agricultural products

**02** Building structure of cold storage/

**03** Design of cold storage/

**04** Technical factor of an Agricultural Products Cold Storage/

**05** Design of refrigeration system/

**06** Controlled atmosphere system of cold storage/

# 01 Cold storage project of agricultural products

Storage of all kinds of fruits and vegetables, temperature 0-5 °C, including pre cooling, air conditioning, processing sorting, packaging, refrigeration and other process requirements

01

# PU/PIR insulation board production

100/150/200/250mm thickness insulation board can be produced which satisfied different cold storage insulation needs.etc.

# 01 Refrigeration unit of large and medium-sized cold storage

We can provide the refrigeration equipment needed by the whole cold storage

## Freon refrigeration unit

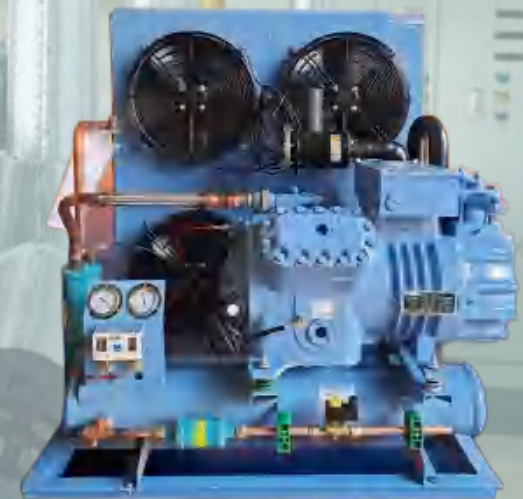

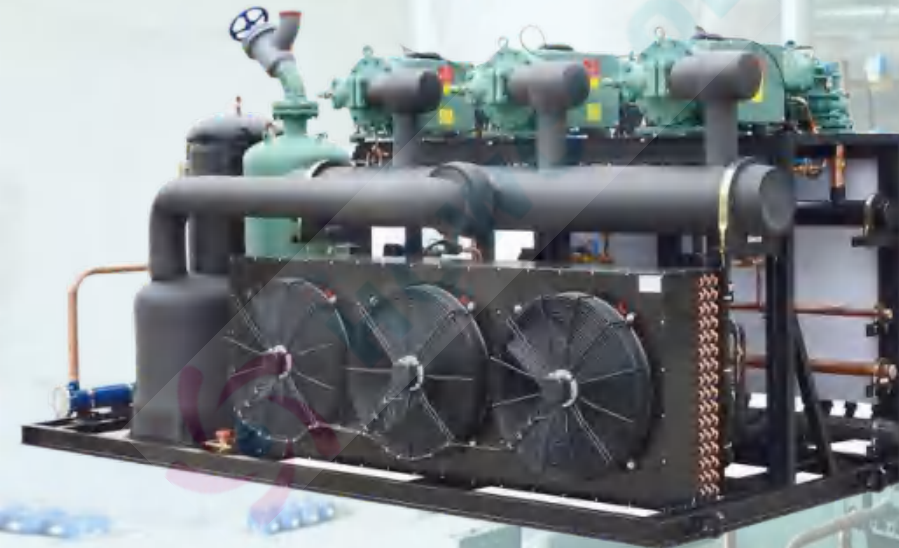

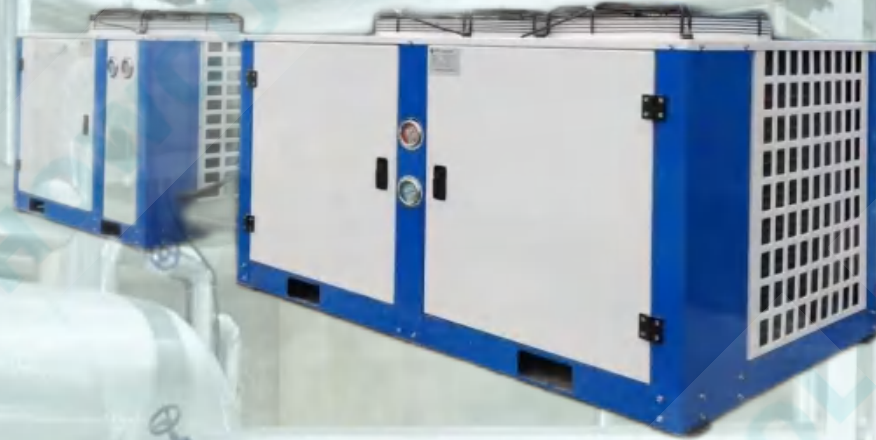

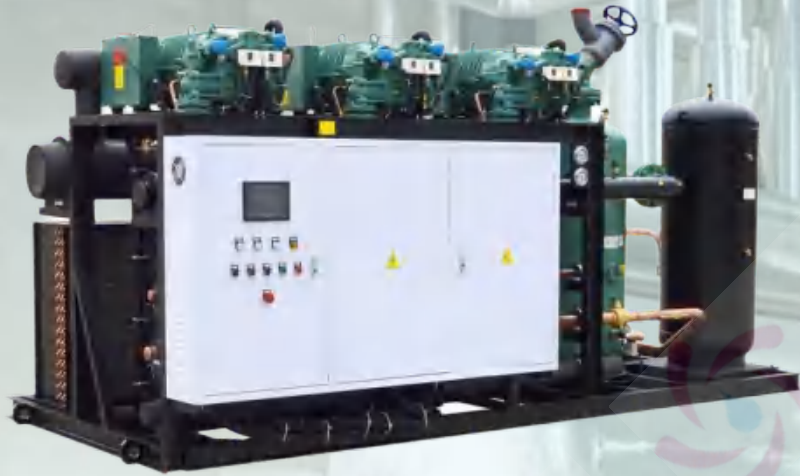

We provide environment-friendly Freon refrigeration units, which can meet the refrigeration requirements of large and medium-sized cold storages with a power of 2hp-300hp. The unit has stable and reliable quality, less failure rate and convenient operation.

Our factory can deliver products within 30 days of production durations

**01**

# Freon refrigeration unit

Refrigeration unit that can meet the requirements of cold storage below 20000 tons

# 01 Evaporator cold storage

# 01 Evaporator for cold storage

# 01 Evaporator for cold storage

# 01 SS304 Evaporator

SS304 stainless steel air cooler, used in food grade cold storage

# 02 Case study of General cold storage

Sketch of Large, Medium and Small Cold Storage

We provide the plan of conventional cold storage, and the actual cold storage project is subject to the actual size

02

# Plan of 5000 ton cold storage

100×46×8m

# Thanks for your attention

PROVIDE COLD STORAGE, FRUIT CONTROLLED ATMOSPHERE STORAGE, FOOD FREEZING STORAGE, QUICK FREEZING STORAGE, ULTRA-LOW TEMPERATURE COLD STORAGE, REFRIGERATION EQUIPMENT AND ENGINEERING SCHEME.

Specializing in providing various cold storage engineering and equipment products

Beijing Howcool Refrigeration Technology Co., Ltd.
